

CENTRAL PIEDMONT COMMUNITY COLLEGE

CORPORATE & CONTINUING EDUCATION

Course Number: MMG7941
Course Title: Adobe Illustrator - Advanced
Course Hours: 14 hours

Last Revised On: 7/8/08

Description:

Geared toward graphic designers using the Adobe Creative Suite, this course covers more advanced topics in Adobe Illustrator. You will learn tips and techniques for working with blends, both shape and color, creating gradients, and compiling your own custom color palettes. Learn how to design your own symbols, patterns and brushes and save them for later use. Apply more styles and effects and explore spot colors and printing options for your best outcomes.

Objectives:

- Hands-on experience with the software.
- To gain a more in-depth knowledge of the latest tips and tricks available.

Content:

1. Blending Shapes and Colors
 - Create, save and modify gradients
 - Create and modify smooth-color blends
2. Working with Symbols
 - Create, apply and redefine your own symbols
 - Use a symbol for 3D mapping
3. Working with Brushes and Scribbles
 - Learn about the four brush types and their settings
 - Create new brushes and apply them to paths
 - Use the scribble effect
4. Applying Appearance Attributes, Graphic Styles, and Effects
 - Create, order, and apply appearance attributes
 - Save and apply a graphic style
 - Determine resolution settings for transparency
5. Using the 3D Effect
 - Use Warp effects and brush libraries
 - Create, map, and revolve 3D objects
6. Printing Artwork and Producing Color Separations
